RAILWAY MACHINISTS WIN THEIR STRIKE

Southern Railway Asks Men to Return to Work.

WILL BE NO DISCRIMINATION

Against the Strikers—Meeting Will Be Called Next Week at Which Adjustment Will Be Made—Telegram From President O'Connell.

Atlanta, Oct. 13.—The striking machinists of the Southern railway have practically won their fight for an increase of 25 cents per day, and will return to work Saturday morning throughout the south.

The matter was arranged by James O'Connell of Washington, D. C., president of the International Association of Machinists, and Samuel Spencer, president of the Southern railway, and the terms of settlement are set forth in a telegram received Friday morning by J. L. Jones, chairman of the local strike committee, from Mr. O'Connell. The telegram follows:

"Washington, D. C., Oct. 11, 1906.

"J. L. Jones, 241 Whitehall street, Atlanta, Ga.:

"Southern officials want all men to return to work Saturday morning without discrimination. They will then meet general committee at Washington early next week. They assure me that honorable adjustment can be reached. Myself and executive board strongly recommend to all the men the adoption of this proposition. Call meeting Friday morning and take action. Wire answer immediately after your meeting.

"JAMES O'CONNELL,
"President."

Following the receipt of the telegram from President O'Connell, a meeting of the local machinists was called, and upon the recommendation of Henry F. Garrett, president of the local lodge, and J. L. Jones, chairman of the strike committee, it was decided to call the strike off, and that the machinists should return to work Saturday morning.

J. L. Jones said:

"Our men will return to work Saturday morning without any discrimination as to those who have led the movement. We have decided to do this because we want to show the Southern railway that we are fair men, and we want the public to know the same thing. We are satisfied that the Southern will do the right thing, and give us the increase asked for. The machinists are a law-abiding lot of men and want to return to work. We are entirely satisfied with the outlook."

Knoxville Machinists Return to Work.

Knoxville, Tenn., Oct. 13.—Local Southern railway machinists and helpers, who went on strike at the Coster shops here last Monday, Friday received orders from Washington to return to work Saturday morning. They claim to have obtained the full concessions demanded, an increase of 25 cents per day, or $3.25 for 10 hours' work.

Pirates Attack Steamer.

Vladivostok, Oct. 13.—A daring case of piracy occurred recently on board the German steamer Anna, while bound from this port for Chifu, China. Ten pirates took passage on the vessel as Chinese laborers, and when at sea attacked and bound her officers, terrified and robbed the passengers and escaped in a boat with all the money and valuables they could find.

Lehnemann, for whom the United States immigration officials have been searching in connection with the smuggling of Chinese into the United States, disclosed by the recent seizure of the schooner yacht Erolic at Providence, R. M'CLENNY—DOBBINS.

Happy Marriage of Two Popular Young People in Cadillac.

At 9 o'clock on the morning of October 11th the home of Mr. and Mrs. C. B. McClenny, Cadillac, was the scene of one of the most perfectly charming house weddings it has ever been the happy privilege of the writer to witness, the occasion being the marriage of Miss Ruth, daughter of Mr. and Mrs. C. B. McClenny, to Mr. Hamilton F. Dobbins of Altoona, Fla.

The lovely home was most beautifully and tastefully decorated with flowers and evergreens, the golden-rod predominating with such perfect and tasteful arrangement as to make the effect most charming.

At the appointed hour the family and guests, relatives of the family, assembled in the parlor, when to the music of the wedding march softly rendered by Miss Bessie McClenny, sister of the bride, the bride and groom appeared taking their place under a lovely arch of flowers and evergreens. The ceremony was performed in a most impressive manner by the Rev. Doctor Foster of Alachua.

The bride was becomingly attired in a gray silk traveling costume with hat to match, and was a picture of loveliness, while the groom wore the conventional black and looked handsomer than usual. After the happy couple were pronounced husband and wife, and congratulations had gone around, the entire party was ushered into the dining-room, where a breakfast fit for even such an occasion awaited them, with every dish and dainty to entice the appetite that an epicurean could wish or suggest, and here at once became a scene of congenial comradeship where all were bubbling over with happiness and good cheer—amidst such conversation, wit and reparte, an hour had quickly glided by and the time had come for the party to separate. The bride and groom had soon said the good-byes and amid showers of rice, old shoes and best wishes, they took carriage for Gainesville, where they took train for the south and their future home, Altoona, where the groom has extensive business interests.

The wedding was a very quiet one, only the near relatives of the family being invited. The bride is well known, and her circle of friends too large to make it necessary to say more than that she was a most charming and popular young lady, loved by all who knew her.

The groom is a young man of sterling business qualities and principles, and whose integrity and standing as the foremost business man of his community is well known throughout that part of the State. He has a lovely home and an extensive business at Altoona.

The prospects for the future of this happy couple are unusually bright, and their happiness seems to be assured.

UNIVERSITY HIGH SCHOOL.

Interesting Notes Prepared by The Sun's Special Reporter.

We are busy and happy.

Why don't our parents come to see us?

We think we have the finest and most orderly school in the State.

We are learning to keep our rooms and the school grounds clean and free from litter.

There ought to be at least a good wire fence around the school grounds. If the school will raise half the money will the Board of Trustees furnish half? Our school yard ought not to be a public passway.

The principal paid us a fine compliment at chapel the other morning, when he said that he had never seen a school in which the general spirit was more cheerful and beautiful.

Some of the rooms already have more pupils than seats—places to put them. The principal says he will soon have to put the "S. R. O." (standing-room only) sign on the Eighth and Tenth grade rooms.

The principal announced last Mon- [illegible] a pleasant surprise for us for chapel Friday, and had us all guessing during the week what it could be. So on Friday at chapel, after prayer, he announced that he was ready to fulfill his promise, and announced that Miss Rosabel Pedrick would sing a solo for us, which she did most sweetly. The hearty and continued applause which followed showed how much the sweet song was enjoyed. The principal announced that these occasional special numbers would be a feature of chapel exercises in future.

Two literary societies were formed yesterday, composed of the members of the Sophomore, Junior and Senior classes. These societies will meet semi-monthly, on alternate Fridays at 2:10 p. m. in the auditorium. They will be in charge of Miss Trotter and Miss Miller, the two high school teachers.

The Freshman class in literature will meet every Friday at the same hour, in charge of the principal.

SKELETON FOUND IN CYPRESS SWAMP

Body of a White Man, But No One Could Identify It.

A VERY PECULIAR CASE

Supposed to Be a Stranger Who Acted Queerly at Bronson Some Time Ago. A Tin Can Containing a Twenty-Dollar Note Found By Body.

Bronson, Oct. 13.—A dispatch from Otter Creek to Sheriff E. Walker yesterday morning stated that a man had been found dead on the road and that an investigation was necessary. The sheriff at once notified County Judge Friedman and they left together by private conveyance to where the body had been reported found, for the purpose of making a thorough investigation. Upon reaching Ellzey they were informed that only the skeleton remained, consequently Judge Friedman deemed an inquest unnecessary. The skeleton was found by a young man named Cason, in the edge of a cypress pond about one mile south of Ellzey and from indications the man had been dead two months. As to who he was is not known and probably never will be.

About the middle of last August, a stranger passed through Bronson going in the direction of Otter Creek, and acting in a peculiar manner. He would walk a while and then run, would walk again and then run, and this was kept up until he was out of sight. The same party was also seen to pass through Otter Creek and Ellzey, acting in the same manner, and the supposition is that this was the man whose skeleton was found in the edge of the pond.

Sheriff Walker, who made dilligent inquiries of the parties who remembered seeing the strange man, and from the clothing found on the skeleton, furnishes the correspondent with the following description: About six feet tall, weight 140 to 150 pounds, sallow complexion, light hair and clean shaven, stooped walk, all his teeth being intact save two of the lower ones, which were missing, black serge coat and trousers, checked negligee shirt, No. 6 shoe, 6⅞ hat and red socks.

A small tin can which contained a twenty dollar gold certificate No. 10363392 and also a bottle containing a small quantity of laudanum was found near the body.

THE PARADISE ROAD.

Overseer Thigpin Says Progress is Being Made on Mile Extension.

Road Overseer Thigpin of the county roads was among those who paid Gainesville a visit Saturday.

Mr. Thigpin has now a force engaged on building an extension of the Paradise road from Paradise towards LaCrosse. The extension will be one mile, all of which has been properly graded and the men are now at work laying the clay. He states that he has one of the finest deposits of clay to be found in the State conveniently located, and will proceed to build the road in fine shape.

FIFTY YEARS MARRIED.

Mr. and Mrs. James Chesnut Will Celebrate Their Golden Wedding.

On October 15th Mr. and Mrs. James Chesnut, who have resided on their fine old plantation near this city for more than forty-five years, will celebrate the fiftieth anniversary of their wedding, which occurred in Camden, S. C., on October 15, 1856.

Coming into the State at a time it was thinly populated, undeveloped, then bloody war and the throes of reconstruction, they have lived to see it become rich, populous and well governed. That they assisted in its development, and the restoration of a good and stable government, goes without saying. In the dark days preceding, and up to 1876, Mr. Chesnut was one of the strong leaders whose courage and wise counsels did much towards bringing about order out of chaos, and the great Democratic victory of 1876, which wrested the State government from the carpet-baggers. Always cool, always conservative, yet fearless, he was a leader who inspired confidence and respect, and the old guard, many of them yet living, will remember how much this county and State owes to him.

Forty-five years ago, in the section of the county in which Mr. and Mrs. Chesnut now live, was quite a colony of South Carolinians, all members of distinguished families from that grand old State, attracted to Florida as a rich, new field for the growing of Sea Island cotton, which was then worth about $1.50 per pound. Among them were Mr. and Mrs. James Chesnut, Mr. and Mrs. Thos. E. Haile, John Haile, Mr. and Mrs. C. E. Haile, Mr. and Mrs. Thomas W. Chesnut, Edward Haile, Ed. Brevard and others—most of them wealthy and large slave owners. They farmed on a scale which in this day would seem colossal, and which will never again be witnessed in the South.

The armies of happy, contented negroes, going singing and shouting to their labors in the great, glistening white fields of cotton, and the sounds of innocent evening revelry in the negro quarters to the tune of a home-made banjo, all have passed away forever, and with them the most delightful and picturesque period of the South's history.

Mr. Chesnut and Chas. E. Haile are the only male members of the original colony now living, but their descendants are scattered throughout the entire State, many of them occupying high and honorable positions.

Both Mr. and Mrs. Chesnut are in the enjoyment of perfect health, and are well preserved for their years. Six children have been born to them, of whom three are now living: Mrs. Scriven Dozier and Charles Chesnut of Jacksonville, and Mrs. B. F. Jordan of Gainesville.

The Sun joins in congratulations to Mr. and Mrs. Chesnut, and wishes them many more years of happiness and prosperity.

Kick of Gun Killed Negro.

Yatesville, Ga., Oct. 13.—Gus James, a negro, about 50 years of age, living 1 mile above this place, was the victim of a peculiar accident. James' children had discovered a snake near the house and the old man went out to shoot it. After returning to the house the gun was accidentally discharged, and the butt of the gun kicked him in the abdomen, causing his death.

Negro School Building Destroyed.

Nashville, Tenn., Oct. 13.—A dispatch from Huntsville, Ala., says the main building of the Oakwood Manual Training school, near that place, was completely destroyed by fire Friday morning. One student was burned to death. Nothing was saved. The purpose of the school is to educate young people of the colored race for Christian [illegible]

Children Locked in House.

Fort Mill, N. C., Oct. 12.—Three negro children were burned to death in a fire which consumed a house on J. M. Pratt's plantation near town. The negro parents locked the children in the house when they went to their day's work, and the children probably started the fire.

MR. ETTEL'S LOSS AT FAIRHOPE, ALA.

Came Near Being Driven From His Home by Heavy Gale.

WAS A FEARFUL DISASTER

The Valuable Pecan Grove and Buildings Were Destroyed, and Work of Many Years Swept Away in One Night—An Interesting Letter.

John W. Ettel, who is spending the summer with his good wife at Fairhope, Ala., where he has owned for several years a fine home, had a terrible experience in the recent storm there, and writes his son, Joseph A. Ettel, of this city, of the same.

Being well known here, the letter will prove of especial interest to the people of Gainesville, and in order to let those of this section know how the people who were in the storm suffered (some of them more than Mr. and Mrs. Ettel), we produce a part of the letter, which is as follows:

"Fairhope, Ala., Sept. 27.

"Your mother came home last night very much fatigued. I did not go to meet her on account of the severe rain storm, but she reached home safely. It kept on raining and storming during the night, and we were awakened every half hour.

"At 2 o'clock in the morning we heard a terrible crash, but it was so dark one could not see his hand before his face. However, we supposed the corn crib had blown down, and fearing that some trees might blow down I went up to the garret and moved the boy (referring to the servant boy), where he soon fell fast asleep. Shortly after there developed a regular bombardment on top of the roof, and against the east side of the house. We attributed it to flying pine burrs and twigs, but found later that it was caused by flying shingles taken off the roof. We most anxiously waited for the break of day, and just as the dawn came we looked out and saw the crib on the ground, and a number of our fine pine trees laying around.

"The storm kept increasing with alarming force, and at 6 o'clock trees commenced to tumble right and left and everywhere, some crashing immediately at our bedroom window; but so far (8 a. m.) none have struck the house. Many trees broke off twenty feet or more from the ground, and it is a desolate sight to notice the crownless stumps. Our favorite cedar tree behind the kitchen was not broken, but was torn up by the roots, and is now laying on top of the well house. We locked our chickens in the coop last night, and they seem to be buried with debris, as I only see nine of them this morning.

"At 9 o'clock the rain abated some, but the storm continues with great fury. We ventured out towards the roads where there was no danger of getting hit, and find our beautiful pine grove, in which we have manifested so much pride, almost demolished. This was of course a sad sight to your mother and myself.

"The fences around the place, as well as the division fences, are now all down. A large mulberry tree which we greatly admired has been demolished, and all the fruit has been blown off the pecan trees. This fruit is not yet ripe, and, although we gathered a large quantity, we fear that they will not keep.

"Although this is a northeast storm (off shore), the tide is as high as it was during the Galveston flood, the waves now washing over our wharf about a foot high. The surrounding private wharves are completely gone, and the waves are now dashing over the steamship wharves of Fairhope, Sea Cliff and Volanta.

"We could only stay out about fifteen minutes, and I will let you know what happened if the good Lord spares me to do so.

"The bridge across the spring at the foot of the bluff I have just discovered is gone, and the water is now nearly to the bluff. We had to cook what little breakfast we ate in the bedroom, as the draft in the kitchen with everything closed was so strong it would not permit the fire to burn.

"We are now without drinking water, as the spring is overflowed with sea water and the well wrecked. We caught two buckets of rain water, but when that is gone we will be at a loss to know what to do.

"Our house, which you know is very substantially built, has been shifted several inches off the pillows, as we are unable to open or close several doors and windows.

"At 10:15 a. m. I ventured into the garret, just in time to look out and see our wharf and wharf house settle, and begin to drift towards shore. You know that was a very serious sight for me.

"Now, that most of the damage is done, the storm is beginning to abate a little. The tide, however, is still rising, and I would not be surprised to see the steamship wharves go, as they are now in a rather shaky condition.

"At 11:45 a. m., the most of our wharf and lumber took a head for middle of the bay, after it started towards shore, and I believe is now gone for good.

"The old warehouse on the big pier has gone to pieces, and the new steamer moored there is half-way out in the bay with her smokestack gone. We of course do not know what other damage has been done to this vessel.

"Two of our neighbors have just been in to get something warm, as their kitchens, with all utensils, have been blown away. They and their families look badly frightened.

"No steamer left for Mobile this morning, as none were able to secure dock facilities. The storm is abating, however, and we expect to go to town as soon as possible and ascertain the damage."

Real Estate Transfer.

Benj. T. Arnow, the efficient chief clerk in the Gainesville postoffice, loves a semi-rural life, and for that reason he loves a home with that sufficiency of room which will permit him to have his stock and his poultry—and everything else he wants for that matter.

Mr. Arnow is very fond of tender, crisp vegetables; he is likewise fond of eggs and chickens and good, pure milk, but has long ago realized that neither of these articles could be secured in the local markets unless fabulous prices were paid, hence decided to provide these luxuries himself.

Mr. Arnow has purchased from Phillip Dampier a handsome little tract of twenty acres, situated just a quarter of a mile west of the University of Florida, where he proposes to raise in future just what he wants—and raise it to his liking. The tract is among the most fertile in the county. It is all cleared and under fence, and the property contains a comfortable cottage, which the new owner proposes to improve in some respects.

Friends of Mr. Arnow congratulate him upon this new investment.

JERRY AND HIS AUTO.

Says He is Willing to Race Any Machine in City of Gainesville.

"I have a great deal of confidence in my new automobile," remarked Jerry Runkle to a number of friends on the east side of the square Thursday, "and I'll bet any man who owns an auto in this town a ginger cake (Mr. Runkle controls a bakery) that I can beat him out on a race. I have confidence in my machine, and I am willing to stand the price with anybody."

Mr. Runkle owns a nice machine. While it is not of the standard guage, it is something of which he may well feel proud, and is giving him excellent service. He is enabled to "keep up" with the best of standard guage machines in the city—and that's what makes him prouder than ever.

A Most Worthy Article.

When an article has been on the market for years and gains friends every year, it is safe to call this medicine a worthy one. Such is Ballard's Horehound Syrup. It positively cures coughs and all pulmonary diseases. One of the best known merchants in Mobile, Ala., says: "For five years my family has not been troubled with the winter coughs. We owe this to Ballard's Horehound Syrup. I know it has saved my children from many sick spells." Sold by W. M. Johnson.

High Springs Improvements.

Captain W. G. Shehee, the merchant and broker of High Springs who was in the city Wednesday, speaks in the highest terms of his town and the improvements which are being carried on there.

Captain Shehee states that the latest improvement in the business section of High Springs is the addition of another story to the store owned and occupied by R. J. Futch and A. J. Moore. This building is located in the best business section of the town, and its location demands a fine trade.

When completed the firm will increase its line of furniture, etc., in order that the good people of High Springs may see the goods properly displayed.

There are many other improvements going on at High Springs, among which are a number of cottages and residences.

If you are suffering from impure blood, thin blood, debility, nervousness, exhaustion, you should begin at once with Ayer's Sarsaparilla, the Sarsaparilla you have known all your life. Your doctor knows it, too. Ask him about it.

Unless there is daily action of the bowels, poisonous products are absorbed, causing headache, biliousness, nausea, dyspepsia, and thus preventing the Sarsaparilla from doing its best work. Ayer's Pills are liver pills. Act gently, all vegetable.

Tomlinson-Wells.

Dr. James Pitt Tomlinson and Miss Pett Wells were married in Atlanta, Sunday morning at 10 o'clock, at the home of E. A. Davidson, Rev. Garrott officiating.

The happy bride and groom arrived in this city Monday night and will make Lake Butler their future home.

The bride is the charming and accomplished daughter of J. W. Wells, one of the proprietors of Hotel Worthington, at Worthington Springs. She has resided in this county the greater part of her life and numbers her friends by the score. She will make the genial Doctor a true and loving helpmate.

The groom is one of the county's most prominent physicians. He has practiced his profession in this city for a number of years and enjoys the confidence and esteem of this entire section. He is devoted to his work and has made a success.

Dr. Tomlinson has recently been located at Worthington, but will hereafter make this city his home and will devote his time to the practice of his profession.

Mr. and Mrs. Tomlinson are at home at their handsome residence in East Lake Butler. They have the best wishes of The Star and a large host of friends for their future happiness and prosperity.—Lake Butler Star, Oct. 5.

Approaching Nuptials.

Mr. and Mrs. Henry Clay Parker of LaCrosse have issued invitations to the marriage of their daughter, Bessie Belle, to Barney O'Quinn, which event will transpire at 2 o'clock on the afternoon of Wednesday, October 17, at the First Baptist Church, LaCrosse.

The contracting parties are well known and popular, and the marriage is looked forward to with a great deal of interest by friends.

The bride-to-be is one of the most charming young ladies in the LaCrosse section, while the fortunate prospective groom is a popular young man of Mayo.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her, until six months ago, when she began taking Electric Bitters which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpanrick of Danforth, Me. Greatest restorative medicine on the globe. Sets stomach, liver and kidneys right, purifies the blood, and cures malaria, billiousness and weakness. Wonderful nerve tonic. Price 50c. Guaranteed by all druggists.

A Cadillac Marriage.

A marriage occurred in Cadillac Wednesday evening, the contracting parties being H. E. Dobbins of Altoona and Miss Ruth, the charming daughter of Mr. and Mrs. C. B. McClenney. The ceremony was performed at the home of the bride's parents, where many friends gathered to wish the young people many happy years of married life.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy, which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bossard, Brubaker, Ill. This remedy is for sale by all druggists.

SAM BURNETT RESIGNED.

Norman Taylor Now Carrier for Rural Route Number 1.

Sam J. Burnett, Jr., who is the pioneer rural mail carrier in this county, having held since its establishment the route known as No. 1 from Gainesville to Bennington and return, has resigned.

Sam did not resign because of the fact that he was dissatisfied, but he desired to attend a business college in Jacksonville, and it would be a difficult matter to do both at the same time. He has performed an efficient and courteous and obliging service, and patrons of the route regretted very much to lose him.

Norman Taylor, another young man of courteous manner, has been appointed to succeed Mr. Burnett, and has already assumed his duties. Mr. Taylor is a young man of aptness and ability, and will no doubt fill the position with perfect satisfaction to the patrons and the government.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to, I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

A Prominent Visitor.

Among the prominent visitors to this city Thursday was Samuel R. Pyles of Ocala, who is one of the Brick City's leading citizens.

Mr. Pyles, prior to the disastrous freeze which we all remember, was the owner of one of the most famous orange groves in the State, located on the Caloosahatchee river. Like many other good and true Floridians, he lost everything he possessed at that time, but by push and energy has worked himself back into the financial and commercial world. He is one who deserves a great deal of credit for what he has accomplished under difficulties.

Don't Be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

A New Cottage.

S. B. Gaskins, the prosperous contracter, is taking a little time of his own to erect on his own property on North Evans street a neat cottage, which will be modern in every respect, and which will pay him a handsome dividend, according to rents throughout the city.

Mr. Gaskins is a deserving man, and everyone who knows him will be glad to learn that he is erecting this new home.

TOO MUCH POWER.

Section No. 34 of the proposed constitutional amendment, says The St. Augustine Record, authorizes the board to enter upon anyone's land and take and use such land before the board pays for same, pending condemnation proceedings. These condemnation proceedings may be extended for many months, and yet the board has a right to use the lands without having paid for them. This is another unwarranted and arbitrary authority given to this board. No property right is better settled than that in condemnation proceedings no organization shall have the right to enter upon and use the property of another under the doctrine of eminent domain until compensation has been paid or provided for the lands so taken; but this extraordinary amendment gives to this board this power, which is exercised and possessed by no other governmental agency in this country. In addition, this Section 34 gives to the board the right in effect to deduct from the compensation which should be allowed to the citizen for his lands taken by the board for its use the alleged benefits on account of the work done or contemplated to be done by the board. The benefits are, under our present Constitution, never permitted to be deducted from the compensation to be allowed the land owner.

Judge Seaman of the United States circuit court, sitting in Milwaukee, has virtually decided that a combination of patents may create a monopoly in violation of the provisions of the anti-trust law and even defeat the purpose of the patent law itself. The case was decided against an Indiana corporation, owning some 200 patents covering what is knownas a "wind stacker," and a Racine manufacturer of threshing machines infringed the patents, claiming that the plaintiff corporation was a monopoly and against public policy. If this decision is sustained the consequences will be far reaching and will overthrow many monopolies covered by patents.

Strange to say, but it is nevertheless true, the fight against the high price of ice in Ocala did not begin until cool weather made the general public independent of the combination

There is a structure which every pupil at school is building, young and old, rich and poor, each one for himself. It is called "character," and every act of your lives is a stone for this structure. If day by day you are careful to build your lives with pure, upright deeds, at the end you will stand a fair temple, honerd by God and man. But as one leak will sink a ship, and one flaw break a chain, so one mean, dishonorable act or word will forever leave its impress and work its influence on your character. Then let the several deeds unite to form a day and one by one the days grow into noble years, and the years as they slowly pass will raise at last a beautiful edifice, enduring forever to your praise, and you will cherish with the utmost tenderness the memories of your school life. The old school house, the familiar walks about the place, the desk upon which you wrote your name all indelibly stored away in memory never to be forgotten.

The Live Oak Democrat refers to an important problem, that of regulating the tough white kid, as follows: "The problem of the tough kid, the tough white kid here in the South in every community, large and small, is also on hand to vex and harass us, and if not managed with firmness and decision, it is going to give us trouble hardly less than the race problem itself. The tough kid is the hoodlum in the tadpole stage of his development, and the hoodlum is the apprentice in crime who will make his appearance later on as the pistol-toting ruffian, murderer and all-round criminal. The tough kid should be handled without gloves by the law if his parents refuse to perform that office for him."

As the people are just beginning to build their houses of cement, the steel trust is casting a covetous eye in that direction, and as an adjunct of its other monopolies proposes to now control the Portland cement industry. The name of the new company is the Universal Portland Cement Company.

Many of those who opposed Governor Broward's election now advocate his drainage scheme, while many of the best men who voted for him are bitterly opposed to the same. Wonder which is consistent from the Governor's standpoint?

Judge Pendleton of the superior court in Atlanta describes a vagrant as follows: "A man must labor enough to keep a good full stomach. A vagrant is a person who does not, when he could, make enough to support himself through his own effort. If a man can make a dollar and a half a day and works only one day in the week, he is not earning a bonifide support. A man who is hungry is more likely to commit a crime than one who is well fed. If a man works only one day in seven, he should be made to stay at home the other six. There is nothing so conducive to crime as idleness, and (speaking to an officer) it is your duty to break it up so far as in your power lies."

Sallie Peck, a 585-pound negro woman who had been penned up in her house for three years because she was too large to pass through the door, died in Tampa recently. The door had to be enlarged in order to remove the corpse from the house, the body being placed in the casket in the open yard. She was said to be 48 years old and had not been to a table for years, using her lap as a receptacle for dishes containing her meals.

The people of Live Oak are happy over the fact that they are to have a new union depot. The Democrat says: "At last, thank goodness, that union depot for Live Oak is assured, through the harmonious action of our Board of Trade, the Railroad Commission and the roads entering this city. It is a "go" this time sure, and within ninety days, if the architectural plans are approved by the Board of Trade, work will be commenced on an up-to-date depot to cost not more than $15,000. That sum of money will give us a handsome structure of brick and stone, and the roads will, of course, see to it that it presents the best possible appearance and has all modern conveniences."

As it is with right and wrong, good and evil, so it is with failure and success. Perseverance is the chief ingredient of the compound that brings success. There may be other elements required—and usually there are—but without this one the mixture is ineffectual. Talent, intellect—genius itself—may all combine for a certain end, but if the force of persistent industry is not behind them, they will lag upon the road and never reach the goal.

LEVY COUNTY SENSATION.

Man Said to Be Found Dead, But No Authentication of Rumor.

The Sun, through the courtesy of a friend who had East Florida telephone connection, received an inkling that a white man had been found dead in the woods near Bronson, or in the immediate vicinity of that town, on Wednesday afternoon.

The Sun has exerted every effort through the East Florida Telephone Company to secure some party at Bronson, but it seems that all parties telephoned who had instruments in their office have been absent, hence it has been impossible to secure definite information. The Levy Times-Democrat was issued on Thursday, however, and no mention is made, hence the rumor must have been mythical.

Child Plays With Dynamite.

Covington, Ga., Oct. 12.—While sitting before the fire at the home of a neighbor, Mrs. A. S. Hopkins was seriously and perhaps fatally wounded by the explosion of a dynamite cartridge thrown into the grate by her little son. The cartridge had been carelessly left in the yard of the Hopkins home by some workmen engaged in blasting the well, and was picked up by the little fellow and carried in his pocket as a toy. The shell, which struck Mrs. Hopkins in the bowels, has not yet been located by the physicians. Mrs. Hopkins is the wife of Dr. A. S. Hopkins, a prominent dentist of this city.

Musgrove, who is wealthy, denies all allegations and has engaged the best legal talent obtainable to fight the case.

QUALITY OF SEED LOWERED.

Harm Done to Cotton Seed In State of Alabama.

Montgomery, Ala., Oct. 12.—The latest item of storm damage talk is the harm done the cotton seed crop of the state, which experts now place at $1,000,000. This is in addition to lowering the grade of the cotton and the destruction of the staple open in the fields.

Cotton seed men from every section of the state are agreed that the loss will exceed $4 a ton on seed, which will mean a great deal to the state in the final wind up. It is shown that in many cases where the seed have been exposed to the weather that they have rotted, and are of no value. They can be taken in the hand and crushed easily.

It is estimated that seed would have brought $13 a ton this year if it had not been for the storm, but that the mill men will not be able to pay now more than $9, and that at that price they will be taking a great risk. If the seed are as badly damaged as was thought they will be worthless for oil, as they will be for planting. This will cut every way, not only taking away the value of the seed, but cutting down the working time of the laborers at the cotton seed oil mills.

Along this line it is estimated that the loss to Alabama farmers because of the storm of Sept. 26, will be $6,000,000, and that it will take 12 months of good time to get them back on a solid footing.

TWENTIETH CENTURY CLUB.

Held an Interesting Meeting at Home of Mrs. W. B Taylor Monday.

The first meeting of the Twentieth Century Club for the session 1906-7 was held Monday afternoon, at the home of Mrs. W. B. Taylor, Mrs. L. C. Lynch, the president for the year, presiding.

In the business session, at the beginning, the various committees made their reports, which were accepted. Mrs. W. S. Dorsey and Mrs. C. A. Colclough were elected delegates to the Annual convention of the State Federation of Woman's Clubs at Tallahassee in November.

Mrs. J. W. Tench, the leader for the afternoon, presided over the literary exercises. The roll call was answered by about thirty members, the majority of whom, as per program, responded with appropriate suggestions for making the year's work a success. The president then read her inaugural address, which was replete with valuable suggestions expressed in admirable literary form.

Excellent music was rendered by Mrs. Evans, Mrs. Becker and Mrs. Crow. The literary program was concluded by a reading by Mrs. T. P. Hay. Mrs. Tench proved an excellent and entertaining leader.

It was decided to hold the next meeting at the home of Mrs. Craighill.

After the Club adjourned the members and visitors were served with light refreshments.

Mrs. Taylor, as hostess, contributed much to the pleasure of the afternoon.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle

OYSTER SEASON ON.

Delicious Cedar Key Bivalves Are Now Being Shipped to Gainesville

The fish and oyster men are happy, because of the fact that they are now receiving oysters from Cedar Key, which are recognized to be as fine as were ever taken, regardless of the locality. Cedar Key oysters have a reputation everywhere, and Gainesville is no exception.

While oysters from the North have been received in sealed cans, and have been on the market for the past ten days or two weeks, the average individual invariably calls for the Cedar Key, and if it is not a Cedar Key he does not relish it as well.

Many families enjoyed a genuine Cedar Key oyster spread Thursday and Friday, and all were delighted with the advent of this famous and delicious bivalve into the market again.

Editor Sun: I want to say through The Sun that is welcome in so many homes, that myself and family fail to find words to express our gratitude to our neighbors and friends for their great sympathy and kindness to us all the way through our great affliction—the going out of our home of our dearest friend, mamma. How much we miss her! Some helped by being present. Others that could not be present sent help in other ways, and then covered the grave with flowers. We just say with all our heart: "Thank you"
